Study 2 Scenarios

**POSITIVE SCENARIO 1:**

You have selected and purchased a racehorse. You enter the horse in a major race and hire a good jockey to ride him. The horse wins first place.

**POSITIVE SCENARIO 2:**

A friend of yours wants to get you a date. You tell her what characteristics you like in a date and she selects one of her friends. You go out with the person and have a very good time.

**NEGATIVE SCENARIO 1:**

You are driving down the motorway when suddenly the woman in front of you slams on her brakes and you run right into the back of her.

**NEGATIVE SCENARIO 2:**

You bought a new shirt about a week ago. You’ve worn it a few times so it needs washing. There are no directions on the material from the manufacturer telling you how to launder it so you go ahead and wash it like you usually do. Afterwards when you put it on, it’s three sizes too small and the colours have faded.
